

FEATURED PROJECT:

TX WHISKEY DISTILLERY

>> Charlotte Pipe and Foundry Product Used

- ChemDrain® pipe and fittings in sizes from 2" through 4"

Description: The TX Whiskey Distillery, makers of TX Blended Whiskey and TX Straight Bourbon, needed a drainage system that could handle high-temperature, highly corrosive material.

The engineer looked at traditional drainage products, like cast iron and PVC, but they did not meet all of the requirements for this specialty system. That's when he decided to go with a chemical waste system - ChemDrain.

ChemDrain checked all of the boxes. Not only does it handle high temperatures and highly corrosive materials, it is easy to install, durable and code compliant.

PROJECT TYPE	>>	Distillery
DATE OF COMPLETION	>>	January 2017
GEOGRAPHIC REGION	>>	South
APPLICATION	>>	Corrosive Drainage
PROJECT LOCATION	>>	Fort Worth, TX
PROJECT ENGINEER	>>	Summit Consultants
GENERAL CONTRACTOR	>>	Steele & Freeman, Inc.
DESIGN ARCHITECT	>>	Tryba Architects
ARCHITECT OF RECORD	>>	Hahnfeld Hoffer Stanford

You can't beat the system.®
