AISI 304 STAINLESS STEEL HEAVY DUTY CORRUGATED SHIELD:

- The Heavy Duty (HD) stainless steel coupling balances the desire for a more rigid joint with the need to provide a superior positive seal which can accommodate possible disparities of No-Hub pipe and fittings. This has been accomplished by using a patented, bi-directional shield featuring corrugations which creates clamp sealing pressure in both parallel and transverse patterns on the gasket and pipe.

AISI 304 STAINLESS STEEL CLAMPS

AISI 305 STAINLESS STEEL 3/8" HEX HEAD UNSLOTTED SCREW

HEAVY DUTY GASKETS:

- The gaskets are manufactured from a compound containing high quality neoprene as the sole elastomer and conform to ASTM C 564.

HEAVY DUTY (HD) COUPLINGS (INCLUDING 12" AND 15") MEET ASTM C 1540.

12" and 15" COUPLINGS MEET ASTM C 1277 and CISPI 310.

Charlotte Pipe strongly recommends that its cast iron pipe and fittings be joined with shielded hubless couplings manufactured in accordance with CISPI 310, ASTM C 1277 or ASTM C 1540 and certified by NSF® International. Failures in installations using couplings not supplied by Charlotte Pipe® are not the responsibility of this Company.
